

Subject: Letter of Interest/Support for LIFE ENV I-SharE - *Innovative sharing solutions for full electric travels in small medium size urban areas*

Comune di Bergamo

Bergamo, 4 September 2017

To whom it may concern,

Bergamo Municipality has been informed by Associated Beneficiary E-Vai about the contents and the actions proposed by the I-SharE proposal, which promotes and tests the use of innovative models of services of electric car sharing in small to mid-sized urban areas, and would like to express his interest in this project and his willingness to be involved as a demonstration site for the testing of models of electric car sharing in our city.

Bergamo has about 120.000 inhabitants, and therefore falls well within the scale and the scope of I-SharE's rationale and activities.

Bergamo Municipality is promoting zero emission mobility through incentive policies in his Urban Mobility Plan (PUM) and intends to collaborate with public and private entities to promote the use of electric car sharing and car pooling.

The Project LIFE ENV I-SharE - *Innovative sharing solutions for full electric travels in small medium size urban areas* appears coherent with Municipality engagement in sustainable mobility and interesting for the innovativeness of its vision.

In particular, the Municipality of Bergamo will be involved in the following activities:

- 1) test the "Model 2.0 just in time", within the Implementation Actions of Life I-SharE, Actions C1-B

The Municipality of Bergamo will take part in meetings and be involved in activities concerning the implementation actions, with specific reference to the implementation of basic infrastructure, the user research, the first design of the services and the co-design workshop, the implementation of the first and final version of the service.

We are looking forward to a fruitful cooperation.

Costs for attending eventual meetings and workshops organized by the project for the purposes above mentioned will be reimbursed.

Sincerely,

Stefano Zenoni

Head Councillor - Mobility Department
